Xavier Delory, nacido en Liège (Bélgica) en 1973, estudió arquitectura y fotografía. El artista realiza arquitecturas ficticias a partir de fotografías. Estas arquitecturas ficticias, inspiradas en las teorías de la arquitectura y el urbanismo, están destinadas a reflejar las cambiantes realidades del mundo en que vivimos. En la actualidad, trabaja en la serie "Peregrinación a lo largo de la Modernidad", un extraño homenaje a los "Del movimiento moderno. Ha expuesto su obra en numerosas ocasiones en Bélgica, Francia, España, Turquía
